

Benefiting House - Much talk of this if
benefited the people with the military
costs, but it's not the military

plants live but a part of what the other side
claims. There are 100 ships waiting to
unload at Saigon alone, & even the U.S.
products affected by the U.S. of America
still in U.S. Today's papers in Saigon
incredible shortage of goods used by the
air plane. They have to be replaced, & the
entire supply has been used up. Therefore
we being requested to make them.

Mr. Hornum was asked why about benefit
of other side. If he was asked a question
that it is helping us, rather than
be not in evidence. The only benefit the
other side gets is cessation of bombing of
civilian population, reduction of its costs &
PRs, most of whose loss is military aviation,
the the destruction clearly has had an effect
on any military traffic.

He seems to have heard about the
propaganda benefit to the U.S., & if it was
not any way it may have contributed to the
loss in distribution of goods have been the condition
in which the same people claim.
